As we continue with challenges from the COVID-19 pandemic, our events will be hosted on ZOOM’s virtual platform. The overall theme for 2022 is **“Growing Fearlessly”**, which small businesses must continue to do in these challenging times. This is the second of several events for the year, each having its own press release and marketing flier.

Our second event of the year is a panel discussion titled **“Women’s Excellence in Entrepreneurship: A Global Perspective”**, in celebration of International Women’s History Month. This event, with a panel of esteemed women in entrepreneurship leadership from various countries, is scheduled for Thursday, March 17, 2022, 11:00 AM – 1:00 PM (EST) on Zoom. The panel discussion shall be framed around the following important topics:

- *Being an empowered woman of influence*
- *The startup climate and opportunities for women-owned enterprises*
- *Programs and funding for women-owned businesses*

- *Africa Continental Free Trade Area and women’s economic empowerment*
- *The future of women-owned businesses in the U.S.*

- *Access to capital and micro financing*

Our panel of distinguished and accomplished women represent South Africa, Uganda, Sierra Leone, Trinidad & Tobago, and the United States of America. Attendance is at no cost, but registration is strongly encouraged, please. For this virtual ZOOM event, we invite small business owners regardless of business model and industry, entrepreneurs, innovative economic disruptors, aspiring entrepreneurs, business professionals, thought leaders, decision-makers, policy makers, independent contractors, gig economy freelancers, sole proprietors, mom and pop business models, micro enterprises, consultants, and members of academia (students, professors, administrators, etc.).
